PROFESSIONAL SUMMARY

Versatile, results-oriented Business Analyst and Product Owner with a solid foundation in software requirements engineering, agile project management, and cross-functional team collaboration. Proven track record of driving successful enterprise solutions, managing client accounts, and optimizing digital experiences within high-growth environments. Adept at breaking down technical complexities into clear, actionable business strategies for stakeholders while leveraging advanced AI and analytical tools to streamline lifecycle development.

KEY SKILLS

- **Business Analysis & Product Ownership:** Requirement gathering, Agile product management, Software Requirements Specification (SRS), Business Requirement Documents (BRD), user stories, user manuals, and scoping.
- **User Experience & Process Mapping:** Process flow design (BPMN), wireframing, user journey mapping, and UI mockups to align design and technical teams.
- **AI & Productivity Acceleration:** Advanced prompt engineering for requirement extraction, workflow optimization, content creation, and analytical modeling.
- **Project Management & Delivery:** SDLC methodologies (Scrum, Kanban), sprint planning, task tracking, timeline alignment, and cross-functional leadership.
- **Presales & Stakeholder Engagement:** Preparing high-impact pitch decks, client proposals, stakeholder presentations, market research, and competitive intelligence.
- **Tools & Frameworks:** MS Office, Google Workspace, Jira, Trello, Slack, Git, Draw.io, Lucidchart, Figma, Canva, Adobe Creative Suite.

PROFESSIONAL EXPERIENCE

Business Analyst & Product Owner | Brain Station 23 Ltd., Dhaka, Bangladesh

August 2025 – Present

- Lead requirement elicitation and product ownership for enterprise-grade software solutions, specializing in Mobile Sales Force Automation (MSFA) and portfolio systems.
- Successfully managed the end-to-end MSFA Redevelopment Project for Popular Pharmaceuticals, conducting the kick-off, defining scope boundaries, and establishing core project milestones.
- Draft comprehensive project documentation including detailed Software Requirements Specifications (SRS), Business Requirement Documents (BRDs), user stories, process diagrams, and functional guides.
- Designed and delivered professional collateral, posters, leaflets, and video scripts to showcase the company's MSFA and AI capabilities at international tech exhibitions, including GITEX Asia in Singapore.
- Conduct comprehensive competitor analysis, market research, and strategic presales assessments to identify market opportunities, construct high-impact client pitch decks, and accelerate lead generation.

- Spearheaded internal training programs, including the 'Gemini Session for BAs', educating peers on integrating advanced artificial intelligence tools to optimize analysis and documentation workflows.

Marketing Business Analyst (Contract) | Rain71 Technology, USA

January 2025 – August 2025

- Partnered with clients to define project scope, deliverables, and timelines, ensuring alignment with business objectives.
- Developed comprehensive requirement documents, including BRDs and user stories, for marketing initiatives.
- Conducted market and competitor research to extract insights and support lead generation and strategic planning.
- Prepared and presented pitch decks for marketing campaigns and client proposals.
- Created basic process flows, wireframes, and diagrams to support communication of proposed solutions.
- Utilized AI tools and creative platforms to develop marketing visuals and high-fidelity demonstration content.
